

## **Bibliography of Academic Staff Writings held in Institute of Education Library 1913 - 2002**

This bibliography contains works by academic members of staff of EID and its predecessor departments focusing on education and developing countries, which are held in the Institute of Education (IOE) library. The list includes approximately 1100 writings. Although the earliest was written in 1913, most of the writings cover the period 1926-2002. The bibliography has been compiled by searching the IOE Library catalogue, annual reports and using information provided by former and current members of staff. The bibliography contains all works on education and developing countries by each author, whether or not they were serving members of staff at the time of publication.

We have included works on the former Soviet Union and Eastern European states, as they would be classed currently as middle-income countries or 'countries in transition'. However, the bibliography does not include works by staff focusing on multicultural, minority or refugee education in the UK or Europe. Nor does it include work on development and international education where these are understood to refer to *curriculum subjects* in primary, secondary and tertiary education. Similarly many works covering education in high-income countries are not included. These works can be searched for on the IOE library catalogue at [www.ioe.ac.uk](http://www.ioe.ac.uk). Staff PhD theses have been included in the separate PhD bibliography on the LEID: 75 cd-rom.

The bibliography lists works in alphabetical order of first authors. Therefore some co-authored works in which the staff member is not the first author are included under the name of the first author. Single authored works for an individual member of staff are listed chronologically before multiple-authored works in which they are the first author. Where there are many of these they are then listed in alphabetical order. Some authors appear on the IOE catalogue and on the publications without full initials. In order to avoid confusion the full initials have been provided for each author, where they are known. Therefore when searching for a particular work on the IOE catalogue the user is encouraged to search by author and also by title to ensure that the correct work is found. Works by authors who changed their names are listed under the name on the publication and therefore the same author appears in two places in the bibliography.

The bibliography does not provide a complete listing of writings by each staff member up to 2002. It includes only those held by the IOE library in hard copy and those written within the scope outlined above.

Every effort has been made to provide accurate publication information for each work listed. There may however be omissions or inaccuracies. If information is not available or not clear on the IOE library catalogue an original copy of each publication has been checked to confirm information, where possible. However, if any omissions or inaccuracies are found please contact [c.bentall@ioe.ac.uk](mailto:c.bentall@ioe.ac.uk) or [a.little@ioe.ac.uk](mailto:a.little@ioe.ac.uk). Colleagues might also wish to donate a copy of any unlisted publications to the Library by sending to the Librarian, Institute of Education, 20 Bedford Way, London WC1H 0AL
